Data Analysis Meeting (aka Bioinformatics Coffee)

Alina Bazarova, Jan Grossbach, Viera Kovacova

This meeting is an opportunity for researchers from different fields to discuss issues related to Bioinformatics data analysis in an informal atmosphere with the members of the Z3 project „Evolutionary bioinformatics".

We provide advice on topics such as statistical tests, experimental design, predictive modelling, machine learning, RNA-seq and DNA-seq analysis, omics data analysis etc.

More details on the Z3 project and participants' expertise is available at

http://crc1310.uni-koeln.de/project-z3.html

CRC 1310   Predictability in Evolution
